About Us

Welcome Friends and Family of Jesse Fisher!

Welcome friends and family to my Music Wizard Academy website. I wanted to share with you this incredible gift. Take a couple of minutes and explore the different products Music Wizard Academy offers. I believe you'll be just as excited as was when discovered their revolutionary process that is changing the way people learn to read music.

- Start Playing the piano in minutes
- Download 1000s of Play Along Songs
- Songs from Virtually ANY Artist
- Experience the Piano Wizard Method
- Learn to Read and Play REAL Music

Your family can sit down at a keyboard today and learn how to play REAL music in a matter of minutes. With the fun of a video game, ease of DVD videos and convenience of printed songbooks you and your family will breeze through all the revolutionary Piano Wizard steps.

One unique and powerful feature of our program is called Wizard Tunes. NOW you can download your favorite songs directly to your computer in a "MIDI" file format allowing you to play anything from Beethoven to U2. Because of our expansive library, you will be able to download your children's favorite pop, rock, country, gospel or alternative tunes as well as classical and traditional pieces. Your family will receive well rounded and exciting musical education that will never be boring or tedious.
